Mission and Vision

Our Mission;

To offer high-quality, reliable, fast-implementable and customized services by generating customer-oriented solutions.

Our Vision;

Our aspiration is to strengthen our customer centric approach and establish ourselves as a global leader in our industry, both domestically and internationally.

Quality

The foundation of our company, and our commitment to it is unwavering ...

- Alfamet aims to improve the quality of the product and service created to meet customer expectations, to deliver it accurately, error-free, and complete on time. We provide the assurance that the products are consistently produced with the same quality, meeting both the requirements specified by customers and the legal regulations.
- During the production stages, operations are subjected to a rigorous quality control process utilizing our experienced team and advanced automatic/manual equipment.
- Our quality management system is certified in accordance with the **ISO 9001:2015** standards.

Health and Safety

Not just a priority, a way of life ... A safe workplace is a productive workplace.

- Alfamet places utmost importance on the health and safety of its employees. With a stringent commitment to occupational health and safety, we implement necessary measures to ensure the well-being and security of our workforce. Our proactive approach towards accident prevention and fostering employee motivation significantly enhances the overall efficiency of our business operations.
- The primary objective of Alfamet's occupational health and safety policies is to establish a safe working environment where everyone is protected and potential risks are minimized.
- Workstations, equipment, and working conditions have been optimized to support the health of employees.

Certifications

Our international quality certifications are recognized as an indication that our business processes are carried out at high standards. We are committed to investing in both occupational health and safety and quality management systems to meet and exceed our customers' and business partners' expectations.

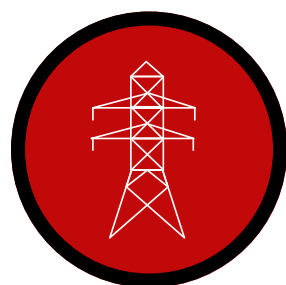

Certifications

The experience gained through the design selection made in accordance with the requests of our customers, the necessary load tests performed accordingly, the selection of raw materials in accordance with international standards and the manufacturing carried out on CNC machines has brought Alfamet to the highest level of quality.

Areas of Activity

Energy Transmission and Distribution

Alfamet, an experienced, renowned, and sought-after contractor in the field of energy transmission line construction; progresses the production process of galvanized/bolted, painted / welded energy transmission and distribution pole according to customer demands and needs in line with its project.

Telecommunication

As an experienced manufacturer in telecommunication projects, Alfamet offers design, production, installation, integration, maintenance, and repair services tailored to customer needs, using high-quality materials. Prioritizing customer satisfaction with its customized solutions and customer-oriented approach in the production of GSM towers and containers.

Substations and Switchyards

Alfamet, having participated in many transformer and switchyard projects at LV, MV and HV levels to date, carries out the production process in accordance with the customer's needs, specifications and standards.

Products

01

Energy Transmission Line Towers

- Energy Distribution Lines [LV-MV Towers]
- Energy Transmission Lines [HV Towers]
- Galvanized Bolted E.T.L. Towers
- Painted Welded E.T.L. Towers
- Galvanized Bolted Transformer Poles
- Lightning Rod Poles

02

Telecommunication / GSM Towers and Apparatus & Container

- Mesh Tower
- Monopole Tower, Flip Tower
- Pre-Fab Ground Base Tower, Mobile Tower
- Panel System Container
- Flanged Box Profile Device
- Link Apparatus, Antenna Apparatus
- Capturing Rods
- Wire Mesh Gate, Wire Mesh Posts

Products

03

Substation Steel Constructions

- Project Management and System Integration
- Steel construction design and manufacturing
- Material and Equipment Procurement

04

Catenary Poles and Railway Structures

- Polygonal, H-profile, Pipe Poles
- Signalization Pole
- Railways Steel Structure Manufacturing

Products

05

Other Tower Types

- Lighting and Projector Poles
- Decorative Lighting Poles
- Solar Lighting Poles
- Advertisement Poles

06

Other Steel Structures

- Steel Construction Building Elements
- Steel Roof Structures
- Steel Platforms
- Custom Steel Fabrication for Industrial Facilities
